

# Bye Bye to dependencies!

One of our beneficiaries named Tanaji Jadhav, has been residing in the settlement of Ramabai Ambedkar nagar in Belapur for the last 25 years with his wife. Around 10 years ago, due to an unfortunate incident, he had to get half of his leg amputated, which has now left him handicapped and hence dependent. Such is the plight of him, where he cannot even work. His wife is the sole bread earner for his family as she works as a domestic help.

Tanaji Jadhav with his wife

With this financial crunch and disability, they were very eager to be facilitated by a household toilet as it would then simplify Tanaji's life drastically, by not having to rely on his wife who would usually assist him in going to the Community Toilet Block. Having a household toilet now has eased his difficulties and not just comforted his disability but also comforted his wife who keeps running round the clock to earn them a livelihood & also cater to her husband's needs due to his disability!
