

COVID19 is rampant worldwide, and the disease declared as a pandemic has played havoc across nations. There are a lot of misconceptions with regards to COVID19 among the slum residents. It is also observed that there is confusion and lack of understanding when it comes to undertaking vaccination of informal settlement residents. Urban Local Bodies lack data regarding vaccination status and its requirements for informal settlements.

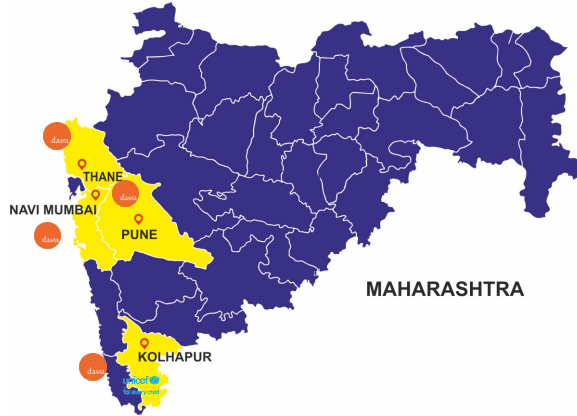

Individuals residing at the surveyed informal settlements of Pune, Kolhapur & Navi Mumbai have not been vaccinated

Date source: Shelter Associates

Having worked across Maharashtra to provide sanitation & COVID relief to slum communities, **Shelter Associates** has now leveraged its data to initiated COVID-19 Vaccination Drives in the cities of Pune, Kolhapur, Navi Mumbai & Thane in collaboration with the respective Municipal Corporations and partner organisations below:

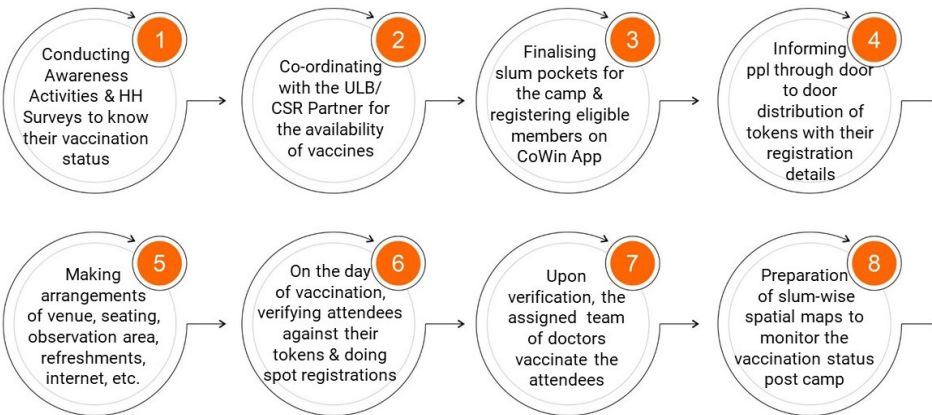

KEY OBJECTIVES OF THE PROJECT

Conducting behavioral change activities for communities around COVID appropriate behaviour & Vaccination

Conducting vaccination camps by close coordination with the Local Health Department of the ULB & CSR Partners

METHODOLOGY ADOPTED

Key Steps
